

Evidence of God (Ats) (Pack of 25) (Pamphlet)

Filesize: 1.48 MB

Reviews

An extremely wonderful publication with lucid and perfect reasons. It typically will not expense too much. You are going to like the way the blogger compose this publication.

CROSSWAY BOOKS, United States, 2017. Pamphlet. Condition: New. Language: English. Brand new Book. I was once full of confidence that Darwinism justified my atheism. I felt I had investigated the issue sufficiently, having studied biology, chemistry, geology, anthropology, and other sciences. No doubt about it--natural selection acting on random variation had put God out of a job. But then I began to go beyond the obvious, to set aside my prejudices, to ask questions I had never posed before, and to pursue the clues of science and history wherever they led. Instead of letting naturalism limit my search, I opened myself to the full range of possibilities. Frankly, I wasn't prepared for what would happen. The facts of science systematically eroded the foundation of Darwinism until it could no longer support the weight of my atheistic conclusions. After two years of intensive scientific research I came to a startling conclusion--the data of the physical world points powerfully toward the existence of a Creator. POSSIBILITY #1--DARWIN As I considered the evidence afresh, I tried to honestly weigh which hypothesis--Darwinism or Design--best accounted for the most current data of science. Looking at the doctrine of Darwinism, which under- girded my atheism for so many years, it didn't take me long to conclude that it was simply too far-fetched to be credible. I would have to believe that: - Nothing produces everything - Non-life produces life - Randomness produces fine-tuning - Chaos produces information - Unconsciousness produces consciousness - Non-reason produces reason Based on this, I was forced to conclude that Darwinism would require a blind leap of faith that I was not willing to make. The central pillars of evolutionary theory quickly rotted away when exposed to scrutiny. For example, naturalistic processes have utterly failed to explain how non-living chemicals could somehow...
